Summer Is Here!!!!

Finally Residents, warm temperatures are here, and we all love a little fresh air. You're welcome to open your windows to let in the breeze, but **DO NOT REMOVE YOUR WINDOW SCREEN**. Removing them doesn't add to air flow and only increases the number of critters flying around your living spaces. Plus, screens are expensive to replace.

Tips For Splitting Chores with Roommates

-Truthfully define your definition of clean early on. Setting expectations early on helps.

-Determine what the chores are and agree on a cleaning schedule.

-Clean your space daily and break down what expectations are in each of the commons room. Since room inspections are frequently unannounced, cleaning the common area daily would be in your best interest.

-Determine accountability. A calendar in the kitchen noting who is cleaning and when provides is a good reminder.

-Discuss problems as they arise. Problems will not self correct.

Bicycle registration is a must! Bicycles left in the bike storage or rack of UH must be registered at building 973/NGIS. Owners must notify the Front Desk when permanently departing the installation or transferring bicycle ownership for proper clearance of bicycle registration.

UH Guest Policy. Guests are defined as people invited into UH by a UH resident. Guest are permitted in UH provided they do not interfere with good order and discipline or are an inconvenience to other residents. **All guests must be registered at the building quarter deck**. A guest is subject to the rules and regulations of UH and will comply with all orders and instructions from personnel acting in an official capacity. Residents are responsible for his/her guests at all times.
